

## Magnetic stirrers MICROSTIRRER

The MICROSTIRRER magnetic stirrer, with epoxy painted metal structure, ensures a high resistance to chemical agents. The MICROSTIRRER is small, simple and effective stirrers specially designed for microtitrations.

The stirrer stays cold even after several days of continuous use. This feature makes it highly appreciated in microbiology and biochemistry.

### Technical data:

#### GENERAL FEATURES

Construction material:

Power:

Power supply:

Weight:

Dimension (WxHxD):

epoxy painted metal structure

0,6 W

100-240 V / 50-60 Hz

0,55 Kg (1.1 lb)

120x48x128 mm (4.7x1.9x5 in)

#### PERFORMANCES

Electronic speed regulation:

Stirring volume (H<sub>2</sub>O):

Speed control:

up to 1100 rpm

up to 5 liters

excellent speed control even at low  
Revolutions

#### Optional Accessories

Stirring bar,  
6x35 mm

Stirring bar  
6x20 mm
